SlingShot Technology rebrands W.A.R.N in West Virginia

SlingShot Technology, a division of Software Computer Group, Incorporated,) a West Virginia Company based out of Fraziers Bottom, West Virginia has negotiated a deal with W.A.R.N., LLC to rebrand the W.A.R.N. Mass Notify product as **SlingShot Mass Notify**.

SlingShot Mass Notify is the fastest, most affordable and complete calling and system, which includes integrated services for 911 Centers, Juror Calling, Church Memberships and business organizations. Mass Notify has the most affordable rapid public notification platform available today, allowing large and small organizations the ability to implement a full hosted and redundant notification system for just pennies per population or household.

Bobby Boggess, President of **SlingShot Technology** stated that “nothing has really changed for their current customers. All of the functionality that W.A.R.N. Mass Notify has is included into SlingShot Mass Notify. Actually, only the name has changed. The primary reason for the rebranding was to add additional functionality for our existing Customers such as integration with Facebook, Twitter plus additional Social Media communication channels.”
